1.1 VIZIO UNIVERSAL REMOTE CONTOL *

The VIZIO Universal Remote Control is a comprehensive remote that can be used to control up to four different devices. The remote button functions are explained on the following pages.

Remote LED – Blinks when the remote operates.

SET - This button starts all programming of the Remote Control.

POWER - Press this button to turn the device on from the Standby mode. Press it again to return to the Standby mode.

DVD - This button selects a programmed DVD player.

AUDIO - This button selects a programmed Audio Receiver/Amp/Home Theatre System.

CABLE - This button selects a programmed cable TV set-top box or a satellite TV set-top box.

TV - This button has been pre-programmed to select the codes to operate the VIZIO HDTV.

1 thru 0 - Use these buttons to select a channel or enter a password.

INPUT - This button allows the user to cycle through the inputs.
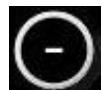

– The DASH button is for the DTV mode. When selecting a digital channel directly use this button for the separation of main and sub-channels. For example, channel 28-2 would be selected by the button sequence 2 8 DASH 2.

*NOTE: This is a programmable remote supporting up to 4 devices (see TV, VCR, CABLE, DVD buttons at the top of the remote). If the remote is not working with your VIZIO TV, press the TV button on the remote to set the functions back to TV.
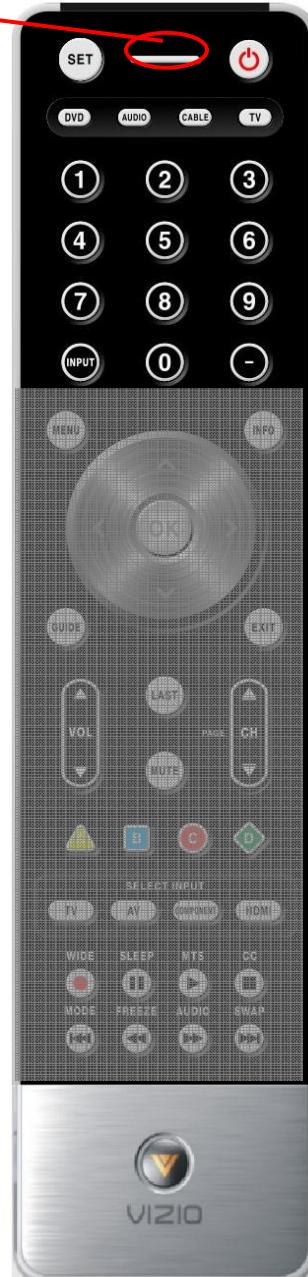

MENU — Use this button for the On-Screen Display (OSD) menus.

INFO – This button displays the image and system information display.

Use the NaVigation Wheel to operate the On-Screen Display (OSD) after it has been activated by pressing the MENU button.
Use the **OK** button to select your chosen option in On-Screen Display (OSD) menus.

GUIDE – This button displays program information. Note: this button is only functional for DTV.

EXIT – This button exits the On-Screen Display (OSD) menus.

VOL (+ or -) – These buttons turn the volume up or down.

LAST – This button recalls the previously viewed channel.

MUTE – This button turns the sound on and off.

CH (+ or -) – These buttons change the channels up or down.

A – When CABLE is selected and the code to match your Cable Box has been entered, this button will operate the Cable Box the same as this button on your Cable Remote.

B – When CABLE is selected and the code to match your Cable Box has been entered, this button will operate the Cable Box the same as this button on your Cable Remote.

C – When CABLE is selected and the code to match your Cable Box has been entered, this button will operate the Cable Box the same as this button on your Cable Remote. If you have a Satellite Box and the code to match your Satellite Box has been entered, this button will operate the Satellite Box the same as this button on your Satellite Remote.

D – When CABLE is selected and the code to match your Satellite Box has been entered, this button will operate the Satellite Box the same as this button on your Satellite Remote.

TV – Press this button to select TV Tuner input. Repeated pressing of this button will switch between TV and DTV inputs on Vizio models which have dual tuners.

AV – Repeated pressing of this button will switch between AV1 and AV2 inputs.

COMPONENT – Repeated pressing of this button will switch between Component 1 and Component 2 inputs.

HDMI – Repeated pressing of this button will switch between HDMI 1 and HDMI 2 inputs. (and up to HDMI 3 and 4 on some models)

WIDE/RECORD – This button cycles through the available screen formats. The options are Wide, Normal, Zoom, Panoramic. Note: in RGB/PC and HDMI modes the options are 4:3 and 16:9. This button also starts recording when using the remote to control your Cable/Satellite Box or VCR.

SLEEP/PAUSE – This button allows the user to select the sleep options by adjusting the timer in 30 minute increments up to 120 minutes. This button also Pauses playback when using the remote to control your Cable/Satellite Box DVR, VCR or DVD Player.

MTS/PLAY – This button will select the MTS options of Stereo, SAP or Mono in standard TV mode and alternate audio channels, where available, in DTV mode. This button also starts Playback when using the remote to control your Cable/Satellite Box DVR, VCR or DVD Player.

CC/STOP – This button will select the Closed Caption mode. The options are OFF, CC1, CC2, CC3, CC4, TEXT1, TEXT2, TEXT3 OR TEXT4. This button also Stops playback/recording when using the remote to control your Cable/Satellite Box DVR, VCR or DVD Player.

MODE/PREV – This button will select the picture mode on your Vizio HDTV. This button also skips to the previous chapter when using the remote to control your Cable/Satellite Box DVR or DVD Player, or REW when using the remote to control your VCR.
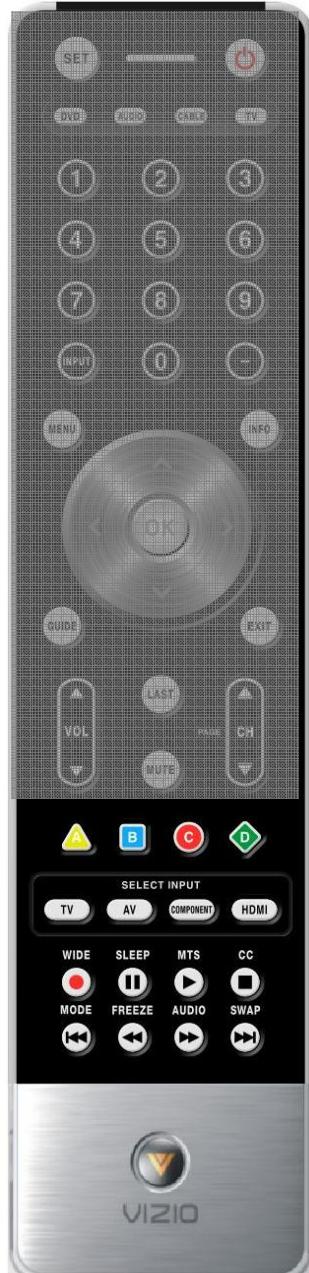

FREEZE/REV – Press this button to "Freeze-Frame" the current screen. Press this button again to display live video. This button also applies reverse play when using the remote to control your Cable/Satellite Box DVR, VCR or DVD Player.

AUDIO/FF – Press this button to switch the audio from the main screen to the sub-screen while in PIP or POP mode (on models equipped with this function). This button also applies fast play when using the remote to control your Cable/Satellite Box DVR, VCR or DVD Player.

SWAP/NEXT – While in PIP/POP mode (on models equipped with this function)., used to swap the inputs from the main screen and the sub-screen; This button also skips to the next chapter when using the remote to control your Cable/Satellite Box DVR, or DVD Player or FF when using the remote to control your VCR.

1.1.1 Insertion of Batteries in the Remote Control

Insert two AA batteries into the remote control. Make sure that you match the (+) and (-) symbols on the batteries with the (+) and (-) symbols inside the battery compartment. Re-attach the battery cover.

Precautionary Tips for Inserting the Batteries:

Only use the specified AA batteries.
Do not mix new and old batteries. This may result in cracking or leakage that may pose a fire risk or lead to personal injury.
Inserting the batteries incorrectly may also result in cracking or leakage that may pose a fire risk or lead to personal injury.
Dispose of the batteries in accordance with local laws and regulations.
Keep the batteries away form children and pets.

1.1.2 Remote Control Range

Point the remote control at the remote control sensor to transmit the commands.
Do not place any obstacles between the remote control and the receiver window.
The effective range of the remote control is approximately 30 feet (10 meters) from the front of the receiver window, 30° to the left and right, 20° up and down.

1.1.3 VIZIO Remote Control Precautions

The remote control should be kept dry and away from heat sources. Avoid humidity.
If the TV responds erratically to the remote control or does respond at all, check the batteries. If the batteries are low or exhausted, replace them with fresh batteries.
When not using the remote control for a long period of time, remove the batteries.
Do not take the batteries apart, heat them, or throw them into a fire.
Do not subject the remote control to undue physical stress, such as striking or dropping it.
Do not attempt to clean the remote control with a volatile solvent. Wipe it with a clean, damp cloth.

1.1.4 Cleaning the Housing and Remote Control

1. Use the VIZIO soft cloth (included) for cleaning.

2. If the housing or remote control is seriously contaminated, use a soft cloth moistened with diluted neutral cleaner to clean the display. Wring water out of the cloth before cleaning to prevent water from penetrating into the housing. Wipe the display with a dry cloth after cleaning.

1.2 Programming the VIZIO Universal Remote Control

You can program the remote control to work with up to four different pieces of equipment including your VIZIO HDTV. Listed below are the steps for programming your VCR, Cable Box and DVD Player.

1.2.1 Programming for VCR*

*Note: The VIZIO Universal Remote Control does not feature a "VCR" device button, but you may program any of the device buttons to act as a VCR device selector, such as DVD, AUDIO or CABLE if you are not using one of those devices.

1. Manually turn on the VCR.

2. Press the button on the remote control which you have selected to control the VCR.

3. Press and hold the SET button until the LED LIGHT flashes twice.

4. Find the programming code for your VCR in the code list in the back of this book and enter it using the Number Buttons. If the code is accepted, the LED flashes twice after the last digit is entered.

5. If the LED does not flash twice, repeat Steps 2 through 4 with the next code listed for the device and manufacturer.

6. Point the remote control at the VCR and press the POWER button. The VCR will turn off.

Note:

a) If your VCR does not respond, try all the codes for your VCR brand. If the codes do not work, or your brand is not listed, see "Searching for Device Codes."

b) Sometimes a code listed will only include limited functions. Try other codes that may include more functionality.

1.2.2 Programming for Cable Set-Top Box

1. Manually turn on the Cable Box.

2. Press the CBL button on the remote control.

3. Press and hold the SET button until the LED LIGHT flashes twice.

4. Find the programming code for your Cable Box in the code list in the back of this book and enter it using the Number Buttons. If the code is accepted, the LED flashes twice after the last digit is entered.

   If the LED does not flash twice, repeat Steps 2 through 4 with the next code listed for the device and manufacturer.

5. Point the remote control at the Cable Box and press the POWER button. The Cable Box will turn off.

Note:

a) If your Cable Set-Top Box does not respond, try all the codes for your brand. If the codes do not work, or your brand is not listed, see "Searching for Device Codes."

b) Sometimes a code listed will only include limited functions. Try other codes that may include more functionality.

1.2.3 Programming for DVD Player

1. Manually turn on the DVD Player.
2. Press the DVD button on the remote control.
3. Press and hold the SET button until the LED LIGHT flashes twice.
4. Find the programming code for your DVD player in the code list in the back of this book and enter it using the Number Buttons. If the code is accepted, the LED flashes twice after the last digit is entered.
   If the LED does not flash twice, repeat Steps 2 through 4 with the next code listed for the device and manufacturer.
5. Point the remote control at the DVD Player and press the POWER button. The DVD Player will turn off.

Note:
   a)   If your DVD player does not respond, try all the codes for your brand. If the codes do not work, or your brand is not listed, see "Searching for Device Codes."

   b)   Sometimes a code listed will only include limited functions. Try other codes that may include more functionality.

1.2.4 Searching for Device Codes

If you cannot find the manufacturer in the device list or the program code does not work, you can use the remote control to search for the correct device code.

To search for a device code:
1.   Turn on the device.
2.   Press the matching device button on the remote control.
3.   Press and hold the SET button until the LED flashes twice.
4.   Press 9 9 1. The LED flashes twice.
5.   Point the remote control at the device and then alternate between pressing the POWER button and the device button on the remote control until the device turns off.
     If the device still does not respond, clear the device button, then repeat the search procedure.

1.2.5 Changing Volume Lock

The remote control can be set to control volume through your TV while in Cable/Satellite, DVD, or VCR device modes.

To change the volume lock:
1.   Press and hold the SETUP button until the LED flashes twice.
2.   Press 9 9 3. The LED flashes twice.
3.   Press the device button that you want once. The LED flashes twice. The selected device Volume will now be controlled using VOL+/VOL- while controlling those other devices

3.0 Teaching Remote Control

It is recommended that both remotes have fresh batteries for the teaching function.Place teaching and learning remote controls no farther than 2" apart. If elapsed time between pressing keys is 10 seconds or longer the remote control will exit programming mode requiring you to start from Step 1.

3.1.1 Teaching the remote

1. Press and hold down the SET key until led blinks twice.
2. Input code **9 7 5**, led blinks twice to confirm code acceptance.
3. Press the Mode key. (DVD, Audio, Cable or TV).
4. Press key to be learned. LED will blink rapidly.
5. Press and hold key to be taught on teaching remote control.
6. Led will stop blinking rapidly, then blink twice to confirm key has been programmed.
7. Repeat Steps 3 through 6 until all desired keys are taught into your remote control.
8. Exit learning mode by pressing SET or by waiting 10 seconds (time out).

3.1.2 Clearing Memory

1. Press and hold down Set until Led blinks twice
2. Input code **9 8 1**, led blinks twice signaling code acceptance.
3. In Step 2, code **9 7 7** can be used in instead.

The remote control is now ready to be programmed with original codes.
