IMPORTANT SAFETY INSTRUCTIONS

Your Unit is designed and manufactured to operate within defined design limits, and misuse may result in electric shock or fire. To prevent such problems, please read the following safety instructions before operating your Unit. Keep these instructions in a safe place for future reference.

• Read these instructions.
• Keep all warnings.
• Follow all instructions.
• Do not use this apparatus near water.
• Clean only with a dry cloth.
• Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
• Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
• Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding pin. The wide blade or the third pin are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
• Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit the apparatus.
• Only use attachments/accessories specified by the manufacturer.
• Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
• Unplug the power cord before cleaning your Unit. A damp cloth is sufficient for cleaning. Do not use a liquid or a spray cleaner on your Unit. Do not use abrasive cleaners.
• Always use the accessories recommended by the manufacturer to insure compatibility.
• When moving your Unit from an area of low temperature to an area of high temperature, condensation may form in the housing. Wait before turning on your Unit to avoid causing fire, electric shock, or component damage.
• Slots and openings in the back and bottom of the cabinet are provided for ventilation. To ensure reliable operation of your Unit and to protect it from overheating, be sure these openings are not blocked or covered. Do not place your Unit in a bookcase or cabinet unless proper ventilation is provided.
• Never push any object into the slots and openings of your Unit enclosure. Do not place any objects on the top of your Unit. Doing so could short circuit parts causing a fire or electric shock. Never spill liquids on your Unit.
• The power cord must be replaced when using different voltage than the voltage specified. For more information, contact your dealer.
• When connected to a power outlet, power is always flowing into your Unit. To totally disconnect power, unplug the power cord.
• The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated, dangerous voltage within your Unit that may be of sufficient magnitude to constitute a risk of electric shock to persons.
• The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and servicing instructions in the literature accompanying your Unit.
• Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
• The wall socket should be located near your Unit and be easily accessible.
• Keep your Unit away from moisture. Do not expose your Unit to rain or moisture. If water penetrates into your Unit, unplug the power cord and contact your dealer. Continuous use of your Unit may result in fire or electric shock.
• Do not use your Unit if any abnormality occurs. If any smoke or odor becomes apparent, unplug the power cord and contact your dealer immediately. Operation of your Unit in this condition may result in fire or electric shock.
• Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
• Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

Follow all instructions.

Heed all warnings.

Keep these instructions.

Read these instructions.

See the important note and rating located on the bottom of the unit.

Ensure that the power cord and any other cables are unplugged before moving your Unit.

Avoid using dropped or damaged appliances. If your Unit is dropped and the housing is damaged, the internal components may function abnormally. Unplug the power cord immediately and contact your dealer for repairs.

Do not install your Unit in an area with heavy dust or high humidity. Operating your Unit in environments with heavy dust or high humidity may cause fire or electric shock.

Avoid using electronic devices near your Unit. Mobile phones, appliances, and other electronic devices can cause electric shock or component damage.

To prevent a fire or shock hazard, do not place any container filled with liquid near the equipment (such as a vase or flower pot) or expose it to dripping, splashing, rain, or moisture.

WARNING: This equipment is not waterproof. To prevent a fire or shock hazard, do not expose your Unit to rain or moisture. If water penetrates into your Unit, unplug the power cord and contact your dealer. Continuous use of your Unit may result in fire or electric shock.

CAUTION: Danger of explosion or fire if battery is mistreated. Replace only with the same or specified type.

Do not overload power strips and extension cords. Overloading can result in fire or electric shock.

Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

Do not use your Unit if any abnormality occurs. If any smoke or odor becomes apparent, unplug the power cord and contact your dealer immediately. Operation of your Unit in this condition may result in fire or electric shock.

Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.

Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

Do not install your Unit in an area with heavy dust or high humidity. Operating your Unit in environments with heavy dust or high humidity may cause fire or electric shock.

Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.

Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

To prevent a fire or shock hazard, do not place any container filled with liquid near the equipment (such as a vase or flower pot) or expose it to dripping, splashing, rain, or moisture.

CAUTION: Danger of explosion or fire if battery is mistreated. Replace only with the same or specified type.

Do not leave the battery exposed to direct sunlight for a long period of time with doors and windows closed. Do not disassemble the battery or dispose of it in fire.

Do not disassemble the battery or dispose of it in fire.

Do not disassemble the battery or dispose of it in fire.

Do not disassemble the battery or dispose of it in fire.

Do not disassemble the battery or dispose of it in fire.

Do not disassemble the battery or dispose of it in fire.

High Definition Sound Bar with Wireless Subwoofer

Remote Control with Batteries

This Quick Start Guide

2 x Power Cables

Stereo RCA to 3.5mm Audio Cable

Coaxial Audio Cable

Digital Optical Cable

2 x Sound Bar Wall Mount Brackets

2 x Wall Mount Screws (Size: M4 x 10)

Wall Mount Template

Cable Management Tie
CONTROLS & CONNECTIONS

Back of Sound Bar

- Power Port
- (USB 5) USB Port
- (Digital 3) Coaxial In
- (Optical 4) Digital Optical Audio In
- (Aux 2) Analog Audio In
- (Aux 1) Analog Audio In
Control Buttons are located here:

- Power
- Input
- Bluetooth Input
  (Hold to force pair. See "Bluetooth Pairing" on page 19)
- Volume

Back of Sound Bar
FIRST-TIME SETUP

1 Connect one of the included cables to ONE TV audio output as shown.*

Connection ports are located here:

[chosen cable: 3.5mm to RCA cable]

*Not all TVs have the audio outputs shown above. To connect the Sound Bar directly to your other devices (Blu-ray player, game system, etc) see your device’s user manual.

**When using either of the Digital Inputs, if there is no audio: (A) try setting the TV output to PCM or (B) Connect directly to your Blu-ray/other source, some TVs do not pass through digital audio.
Connect a Power Cable to the Sound Bar.

Plug the Power Cable into a Power Outlet.
4. Connect a Power Cable to the Subwoofer.

5. Plug the Power Cable into a power outlet.

6. Flip the Power Switch into the On position.
For the best surround sound experience, position the Sound Bar and Subwoofer as shown. The Sound Bar should be close to ear level.
Remove the battery cover by gently sliding it away from the remote.

Insert the included batteries and gently slide the battery cover back into place.

Turn your TV on, then press the Power button on the remote to turn the Sound Bar on.

Press the Input button to switch between audio sources. For example, if you connected your TV to Input 1, set the Sound Bar to Input 1.

Hardware Setup is complete.
USING THE REMOTE

Display
Displays Sound Bar settings

Input
Press to change input source.

Up/Down
Press to cycle through settings and options.

Previous
Press to return to previous track. (Changes audio settings in Menu)

Volume -
Press to decrease volume.

Mute
Press to mute/unmute.

Menu
Press to access the menu settings.

Power
Press to turn on or off.

Enter/Play/Pause
Press to select an option. Press to Play or Pause.

Next
Press to skip to the next track. (Changes audio settings in Menu)

Volume +
Press to increase volume.
**ADJUSTING SOUND BAR SETTINGS**

LED Indicators are located here:

Press the **Menu** button and use the **Up/Down Arrow** buttons on the remote to access the different functions and acoustic settings of the Sound Bar. Each function and setting will be displayed on the remote control’s LCD display. The LED Indicators will behave differently with each function.

RE-LINKING THE SUBWOOFER WITH SOUND BAR

Your Subwoofer has already been paired with your Sound Bar by VIZIO. However, you may need to pair the Subwoofer to the Sound Bar if there is no sound coming from the Subwoofer.

What does pairing mean?
Pairing means to wirelessly connect.

1. **Back of Subwoofer**

   First confirm that the power switch is in the **ON** position.

   Press and hold the **Pairing** button on the back of the Subwoofer for 5 seconds. The LED on the back of the Subwoofer will begin to blink.

2. **Back of Sound Bar**

   Press and hold the **Power** button on the back of the Sound Bar for 5 seconds. The LED indicators on the front will flash 3 times. The Subwoofer is now linked with the Sound Bar.
To pair the Sound Bar with a Bluetooth device:

1. **Press and hold** the Bluetooth button on the Sound Bar for five (5) seconds or use the BT Pair menu option from the remote (see “Adjusting Sound Bar Settings” on page 14). When the Sound Bar is in Bluetooth Pairing Mode, the LED Indicators on the Display Panel on the front of the Sound Bar will light sequentially from left to right and back again. Once the device is paired, the LED Indicators will stop flashing.

2. You can now search for the Sound Bar (VIZIO S4221w) using your Bluetooth device. For more information, see the documentation that came with your device.

3. Play audio from your Bluetooth device. Volume can be controlled on your source device and the Sound Bar.
USING BLUETOOTH MODE

Your Sound Bar supports music streaming from smartphones, tablets, and computers with Bluetooth capability. Device compatibility will vary, see your device’s documentation for more information. Once you have paired your source device to the Sound Bar, as long as you stay within range of the Sound Bar, your device should remain paired, even if you change the input on the Sound Bar.

Your Sound Bar is not equipped with a microphone, so it cannot operate as a hands-free device for a smartphone.

Maximizing Signal

A Bluetooth signal has a range of up to 30 feet. Keep in mind that Bluetooth is a compressed audio format, so streamed music may lose some integrity when compared to a wired connection.

Try the following if your sound quality is less than optimal:

• If you hear any break-up or disconnect while streaming music from your device, move the source device closer to the Sound Bar.
• Be sure that there are no solid obstructions in the line-of-sight between the Sound Bar and the source device.
• Other wireless devices can affect Bluetooth range, including wireless security cameras, wireless video baby monitors, cordless phones, and microwave ovens. Turning off or moving these devices may improve Bluetooth range.

Reduce the volume levels on your device and on the Sound Bar before pressing Play. High volume levels can damage your hearing.
ADVANCED SETUP

Connect up to five (5) different devices to the Sound Bar (devices shown are examples—you can use any device).

To listen to a device, change the input source on the Sound Bar.

Optical, Coaxial, and 3.5mm cables transmit audio only. If connecting a video device, you will need a separate video connection from the device to your TV.

*Supports .WAV file format playback only
INSTALLING THE CABLE MANAGEMENT TIE

The Cable Management Tie can be used to organize the input and power cables behind the sound bar.

1. Place the Sound Bar face down on a non-marring or soft flat level surface.
2. Insert the **Tie** into the hole on the center of the Sound Bar.
3. Insert the **Pin** into the **Tie** to secure the Cable Management Tie.
4. To remove the Cable Management Tie, remove the **Pin** and gently pull the **Tie**.
WALL MOUNTING THE SOUND BAR

1

Back of Sound Bar

Wall-Mount Screw Holes

Insert and tighten two Wall-Mount Screws with a Phillips-head screwdriver into the Wall-Mount Screw Holes.

2

WALL MOUNTING TEMPLATE

LEAVE THIS SPACE BETWEEN THE SOUND BAR AND YOUR TV

Place the included wall mounting template against the wall under your TV. Mark the four bracket holes using a pencil.
Be sure your screws are attached to wood studs or drywall anchors (for drywall) or concrete anchors (for brick/concrete walls). Wall mounting hardware is not included.

If you are unfamiliar with power tools or the layout of electrical wiring in the walls of your home, consult a professional installer.
HELP & TROUBLESHOOTING

There is no power.
- Press the POWER button on the remote control or on the top of your Sound Bar.
- Ensure the power cord is securely connected.
- Plug a different device into the electrical outlet to verify that the outlet is working correctly.

There is no sound.
- Increase the volume. Press Volume Up on the remote control or on the top of your Sound Bar.
- Press MUTE on the remote to ensure the Sound Bar is not muted.
- Press INPUT on the remote or on the top of your Sound Bar to select a different input source.
- When using either of the Digital Inputs, if there is no audio: (A) try setting the TV output to PCM or (B) Connect directly to your Blu-ray/other source, some TVs do not pass through digital audio.
- Your TV may be set to variable audio output. Confirm that the audio output setting is set to FIXED or STANDARD, not VARIABLE. Consult your TV’s user manual for more detailed information.
- If using Bluetooth, ensure that the volume on your source device is turned up and that the device is not muted.

I hear buzzing or humming.
- Ensure all cables and wires are securely connected.
- Connect a different source device (TV, Blu-ray player, etc) to see if the buzzing persists. If it does not, the problem may be with the original device.
- Connect your device to a different input on the Sound Bar.

The remote isn’t working.
- Replace the remote batteries with new ones.
- Point the remote directly at the Sound Bar when pressing a button.
- If using a Bluetooth connection, some of the buttons on the remote may not be supported by the streaming application. (e.g., Pandora doesn’t support the Back button.)

There is no sound coming from the Subwoofer.
- If the light on the Subwoofer is blinking in a slow pattern, you will need to pair the Subwoofer with the Sound Bar. See “Re-linking the Subwoofer with Sound Bar” on page 18.
- Move the Subwoofer closer to the Sound Bar.
- Turn the Subwoofer power switch to ON.
- To conserve power, the Subwoofer will automatically enter a low power state when not in use. It may take up to 10 seconds for the Subwoofer to link after the Sound Bar is turned on.
DO YOU HAVE QUESTIONS?
LET US HELP!
YOUR PRODUCT INCLUDES FREE LIFETIME TECH SUPPORT

The VIZIO support team is highly trained and is based in the United States.

Introducing the new E-series slim frame design. The VIZIO E-series LED TV is shattering the mold in a way only VIZIO can, with high-quality design and picture at the best value. With a stunningly slim outer frame design – and LED with 1080p Full HD for rich colors and vivid details, this HDTV gives you the best picture at the best value.

Available at www.VIZIO.com
The VIZIO Co-Star™ Stream Player merges live TV and streaming entertainment into one experience, turning any HDTV into the ultimate smart TV. Using the latest version of Google TV™, Co-Star decks out your existing HDTV with apps, full-screen Web browsing and the best in streaming entertainment. And with 1080p Full HD resolution, built-in Wi-Fi, and 3D-readiness, VIZIO Co-Star is the ultimate entertainment upgrade for any high-definition television.

Available at www.VIZIO.com
14“ THIN+LIGHT
With uncompromising performance, and premium picture and audio quality in a remarkably thin profile, the VIZIO Thin+Light is the Ultrabook that’s impossible to ignore. Ultra-responsive and ultra-portable, the VIZIO Thin+Light boots up instantly and goes wherever you do. If good things come in small packages, this must be the best there is.

Available at www.VIZIO.com
ONE-YEAR LIMITED WARRANTY

ON PARTS AND LABOR
Covers units purchased as new in United States and Puerto Rico Only
VIZIO provides a warranty to the original purchaser of a new Product against defects in materials and workmanship for a period of one year of non-commercial usage and ninety (90) days of commercial use. If a Product covered by this warranty is determined to be defective within the warranty period, VIZIO will either repair or replace the Product at its sole option and discretion.

To obtain warranty service, contact VIZIO Technical Support via email: TechSupport@VIZIO.com or via phone at 877 MY VIZIO (877.698.4946) from 5:00AM to 9:00PM Monday through Friday and 8:00AM to 4:00PM Saturday and Sunday, Pacific Time, or visit www.VIZIO.com. PRE-AUTHORIZATION MUST BE OBTAINED BEFORE SENDING ANY PRODUCT TO A VIZIO SERVICE CENTER. Proof of purchase in the form of a purchase receipt or copy thereof is required to show that a Product is within the warranty period.

Parts and Labor
There will be no charge for parts or labor during the warranty period. Replacement parts and Products may be new or recertified at VIZIO’s option and sole discretion. Replacement parts and Products are warranted for the remaining portion of the original warranty or for ninety (90) days from warranty service or replacement, whichever is greater.

Type of Service
Defective Products must be sent to a VIZIO service center to obtain warranty service. VIZIO is not responsible for transportation costs to the service center, but VIZIO will cover return shipping to the customer. PRE-AUTHORIZATION IS REQUIRED BEFORE SENDING ANY PRODUCT TO A VIZIO SERVICE CENTER FOR WARRANTY SERVICE.
Product returns to VIZIO’s service centers must utilize either the original carton box and shipping material or packaging that affords an equal degree of protection. VIZIO Technical Support will provide instructions for packing and shipping the covered Product to the VIZIO service center.

Limitations and Exclusions
VIZIO’s one-year limited warranty only covers defects in materials and workmanship. This warranty does not cover, for example: cosmetic damage, normal wear and tear, improper operation, improper voltage supply or power surges, signal issues, damages from shipping, acts of God, any type of customer misuse, modifications or adjustments, as well as installation and set-up issues or any repairs attempted by anyone other than by a VIZIO authorized service center. Products with unreadable or removed serial numbers, or requiring routine maintenance are not covered. This one year limited warranty does not cover Products sold “AS IS”, “FACTORY RECERTIFIED”, or by a non-authorized reseller.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED OR DESCRIBED ABOVE. ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED IN DURATION TO THE PERIOD OF TIME SET FORTH ABOVE. VIZIO’S TOTAL LIABILITY FOR ANY AND ALL LOSSES AND DAMAGES RESULTING FROM ANY CAUSE WHATSOEVER INCLUDING VIZIO’S NEGLIGENCE, ALLEGED DAMAGE, OR DEFECTIVE GOODS, WHETHER SUCH DEFECTS ARE DISCOVERABLE OR LATENT, SHALL IN NO EVENT EXCEED THE PURCHASE PRICE OF THE PRODUCT. VIZIO SHALL NOT BE RESPONSIBLE FOR LOSS OF USE, LOSS OF INFORMATION OR DATA, COMMERCIAL LOSS, LOST REVENUE OR LOST PROFITS, OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE. THIS WARRANTY IS SUBJECT TO CHANGE WITHOUT NOTICE. CHECK www.VIZIO.com FOR THE MOST CURRENT VERSION.

Compliances: UL, C-UL, FCC
LEGAL & COMPLIANCE

FCC Class B Radio Interference Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Notice:

1. The changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
2. Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.
3. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification to this equipment. It is the responsibilities of the user to correct such interference.

RF Exposure Information

This device meets the government’s requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. This device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

IC Statement

Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

IC Radiation Exposure Statement

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Disposal and Recycling

You must dispose of this product properly according to local laws and regulations. Because this product contains electronic components and a battery, it must be disposed of separately from household waste. Contact local authorities to learn about disposal and recycling options.
